Semester 1
Fundamentals of National Resistance
English Language
Mathematical Analysis
Algebra and Geometry
Mechanics
Introduction to Specialty
Fundamentals of Economics
Ukrainian for Professional Purposes
Fundamentals of Healthy Lifestyle
Semester 2
Mathematical Analysis
Algebra and Geometry
Thermodynamics and Molecular Physics
Chemistry
Computer Graphics
Historical and Philosophical Foundations of Social Development
Semester 3
Mathematical Analysis
Electricity and Magnetism
Differential Equations
Methods of Mathematical Physics
Numerical Methods and computer Software
University Elective Catalog
English for professional purposes
Programming
Semester 4
Differential Equations
Classical Mechanics
Optics
Methods of Mathematical Physics
Numerical Methods and computer Software
Elective F1
University Elective Catalog
Practical Course in Foreign Language
Programming
Semester 5
Methods of Mathematical Physics
Atomic Physics
Field Theory
Oscillations and Waves
Elective F2
Elective F3
Elective F4
Ecology
Semester 6
Probability Theory and Mathematical Statistics
Mathematical Modelling and Applied Open Source Software Packages
Electrodynamics of Continuous Media
Quantum Mechanics
Elective F5
Elective F6
Elective F7
Human Rights and Freedoms
Semester 7
Statistical Physics and Fundamentals of Solid State Physics
Statistical Radiophysics and Optics
Laboratory Session
Interdisciplinary Course Work
Elective F8
Elective F9
Elective F10
Elective F11
Semester 8
Fundamentals of Scientific Research
Elective F12
Elective F13
Elective F14
Pre-Diploma Practice
Bachelor Thesis
