Semester 1
Semester 2
Semester 3
Semester 4
Semester 5
Semester 6
Semester 7
Semester 8
Algebra and Geometry
Mathematical Analysis
Introduction to Specialty
Mechanics
Fundamentals of Economics
Ukrainian for Professional Purposes
English Language
Fundamentals of National Resistance
Fundamentals of Healthy Lifestyle
Thermodynamics and Molecular Physics
Chemistry
Computer Graphics
Historical and Philosophical Foundations of Social Development
English for professional purposes
University Elective Catalog
Methods of Mathematical Physics
Differential Equations
Electricity and Magnetism
Programming
Numerical Methods and computer Software
Classical Mechanics
Optics
Practical Course in Foreign Language
University Elective Catalog
Elective F1
Atomic Physics
Field Theory
Oscillations and Waves
Ecology
Elective F2
Elective F3
Elective F4
Probability Theory and Mathematical Statistics
Quantum Mechanics
Electrodynamics of Continuous Media
Mathematical Modelling and Applied Open Source Software Packages
Human Rights and Freedoms
Elective F5
Elective F6
Elective F7
Interdisciplinary Course Work
Statistical Physics and Fundamentals of Solid State Physics
Statistical Radiophysics and Optics
Laboratory Session
Elective F8
Elective F9
Elective F10
Elective F11
Fundamentals of Scientific Research
Pre-Diploma Practice
Bachelor Thesis
Elective F12
Elective F13
Elective F14
